

# WATER RIGHTS

Sage Civil Engineering can provide the technical services you need for all of your water rights work including:

-  New water rights
-  Enlargements
-  Change in Use Petitions
-  Change in Place of Use Petitions
-  Irrigation Plans
-  Consumptive Use Reports
-  Exchanges

Our water rights clients include private developers, municipalities, irrigation districts and private citizens. Sage Civil Engineering is your one-stop shop for water supply engineering. Whether lands are being taken out of production for development or creative solutions are needed to fulfill a supply need, we can help.
